# Bicycle Rules

## ★Points to note when using rental cycles★

When using a rental cycle, please be aware of the following points.

- When parking, please use a bicycle parking lot. It is smoother to check the bicycle parking lot near your destination in advance.
- Parking on public roads, etc., not only causes trouble for residents but may also result in your bicycle being removed as an abandoned bicycle.
- Let's observe traffic rules and manners. In Japan, there are many accidents at intersections. Stop once and check that it is safe!
- From November 1, 2024, penalties will be imposed for riding while using a smartphone or riding under the influence of alcohol.
- Wear a helmet.
